ABOUT US

Semper Digital Solutions LLC is a Service-Disabled Veteran-Owned Small Business delivering custom software development, AI/machine learning solutions, and web application engineering for federal and commercial clients. Founded by a U.S. Marine Corps Special Operations veteran with over a decade of software engineering experience, SDS combines deep technical capability with the discipline, adaptability, and mission focus that critical programs demand. We are positioned to support prime contractors on federal IT modernization, AI/ML integration, and custom application development programs.

CORE CAPABILITIES

- > Custom Software Development
- > AI & Machine Learning Solutions
- > Web Application Development & Engineering
- > Cloud-Based Application Architecture
- > Intelligent Automation & AI Agent Systems
- > Data Analytics & Visualization
- > Systems Integration & API Development
